In all our travels,
from the bush to the beach,
from the farm to the suburb,
always full of friends,
on two and four legs.

And here's

WHAT THEY SAID

“This was our first experience of using a house sitting service, and it worked *brilliantly.”*
Nicki Myers *(read more)*

“If you are available at the same time next year we would be very happy (and so would Jess) if you could come and house sit for us again.”
Maggie Webb and Peter Kerr (read more)

ps. Thanks for the food that you left for us, especially the cold beer. It went down very well after a long flight!

“Renae’s horticultural knowledge and gardening skills were invaluable in the maintenance of the garden whilst I was away.”
Sue Cameron (read more)

“We were sorry when they decided to move on as they were excellent neighbours (and tenants).
They left the house and garden in a condition that the new tenants were able to move straight in.”
Gillian Murray (read more)

“Arriving home to everything exactly how we left it was the icing on the cake, I couldn’t have asked for any more.

The small details had also been considered; pet areas clean and restocked with food, a light left on in the house and the milk in our fridge made arriving back home late at night easier.

It was such a blessing to know that such care had been taken of our pet, pool and home.”
Cara Waldron & Grady Holland (read more)

“During our trip Renee kept in touch with us and sent photos of Ruby which was a lovely touch and kept our minds at ease.

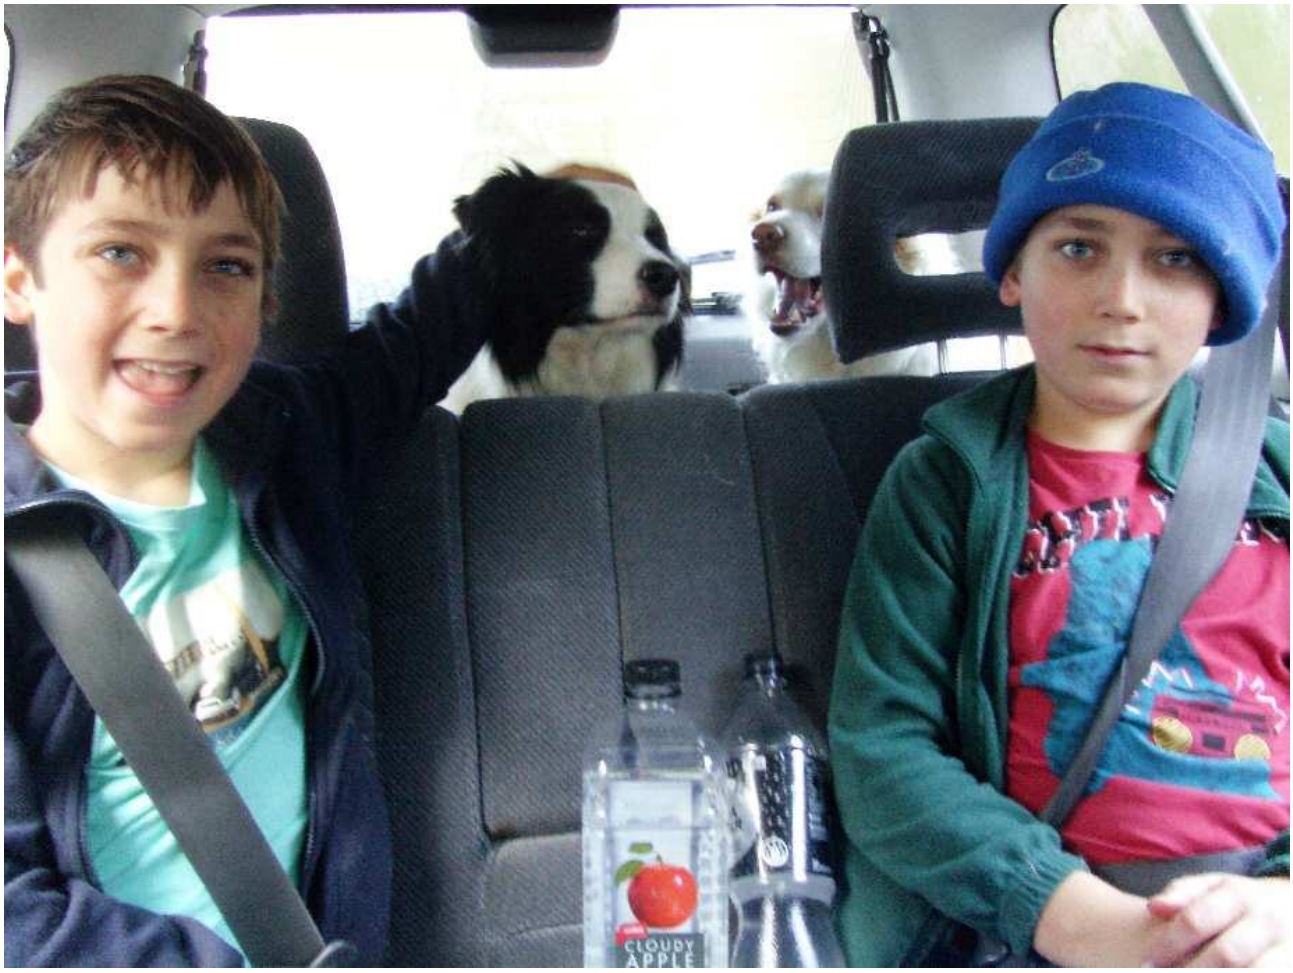

I know that Ruby got very special care while we were away because when we came home she kept going to the spare room Renee and her husband were using looking for them!

We also came home to a clean house with fresh milk and food in the fridge which was another lovely touch.”
***Sarah Chatterton** (read more)*

“When I met them they came across as a lovely family that would take care of your possessions and pets.
They left our house clean and tidy – which is a feat with our dog and sizable home. Our cocker spaniel was well cared for and they adored her so much that they want to come and see her again!”
Julie Curnow *(read more)*

“We knew when we first met that we had found the perfect family to care for our cats, chooks, garden and our home.”
Marlene and Mike (read more)

“Renae’s attention to detail ensured that all went well. From the first contact, Renae communicated in a friendly and timely manner; this aspect continued throughout our absence, and was particularly relevant and reassuring, as one of our dogs required an operation in the first week of our absence. This necessitated several follow-up visits to the vet, and daily attention to the dog for most of the time we were away. Renae’s emails were reassuringly frequent.”
David and Lorelle Skewes (read more)
