Dear Renae, Sebastian, Jarrah & Forrest

Our first participation with house sitters was a very positive experience, thanks to your family's understanding and previous knowledge of caring for other people's pets and property. From the questions you asked, to the contact prior to your arrival we knew your family would be exactly what we were after and were not disappointed.

We were kept up to date whilst on our 3 week holiday, part of which was out of the country, receiving regular updates on our home and pet whenever we needed. Knowing we would be coming home to a relaxed and well cared for pet meant we could enjoy our holiday, this was really valued.

The initiative taken to investigate a solution (to the pool filter issue) without needing to get a professional to come and look at the problem really confirmed that great care of our property was being taken, as if it were your own. The pool was clean, the house clean and tidy – as if we had only left the day before.

Arriving home to everything exactly how we left it was the icing on the cake, I couldn't have asked for anymore. The small details had also been considered; pet areas clean and restocked with food, a light left on in the house and the milk in our fridge made arriving back home late at night easier. It was such a blessing to know that such care had been taken of our pet, pool and home.

In appreciation and please do not hesitate to use us as a reference, we would love to have you in our home again one day, happy and safe travels.

Cara Waldron & Grady Holland
