27 Hope Street

Mosman Park WA 6012

January 2015

Renae Schwager and Sebastien Delisle resided in our home, maintained the garden and looked after our pets a cat and dog whilst we were on an extended holiday for 5 weeks in 2014 and then for a further 8 weeks in the following year in 2015. I highly recommend Renae and Sebastien for any house sitting and pet minding stays.

Renae's horticultural knowledge and gardening skills were invaluable in the maintenance of the garden whilst I was away.

They have a special affinity with the animals and included them in their family life. The animals especially Lucy our rather large dog was always very excited to see Renae, Sebastien and the boys and ready for a play on the oval when they were residing in the same street

Our house was their home for the time that we were away and this was obvious on our return. The house and garden were well maintained well above the expectations of any persons employed to look after a house and garden in the resident's absence.

I am happy to discuss in person if required.
